

**HOËRSKOOL BEKKER
VAKKEUSE GR 10
SUBJECT CHOICE GR 10**

VAN/SURNAME:

NAAM/NAME:

**ALLE LEERDERS NEEM 7 VAKKE.
ALL LEARNERS HAVE TO TAKE 7 SUBJECTS.
VERPLIGTE VAKKE/COMPULSORY SUBJECTS:
MERK 2 VAKKE MET 'N KRUIS/INDICATE TWO SUBJECTS WITH A CROSS.**

2 VAN/2 OF THE FOLLOWING:			KEUSE/CHOICE
AFRIKAANS HUISTAAL	Ai	AFRIKAANS HOME LANGUAGE	
AFRIKAANS EERSTE ADDISIONELE TAAL	Aii	AFRIKAANS FIRST ADDITIONAL LANGUAGE	
ENGELS HUISTAAL	Ei	ENGLISH HOME LANGUAGE	
ENGELS EERSTE ADDISIONELE TAAL	Eii	ENGLISH FIRST ADDITIONAL LANGUAGE	

MERK 1 VAK/CHOOSE 1 OF THE FOLLOWING			KEUSE/CHOICE
WISKUNDE	WM	MATHEMATICS	
WISKUNDIGE GELETTERDHEID	WG	MATHEMATICAL LITERACY	

VERPLIGTEND/COMPULSORY			KEUSE/CHOICE
LEWENSORIËNTERING	LO	LIFE ORIENTATION	X

KIES ENIGE EEN VAN DIE VOLGENDE GROEPE CHOOSE ANY ONE OF THE FOLLOWING SUBJECT GROUPINGS				KEUSE/CHOICE
1.	FP	&	LS	
2.	AG	&	TT	
3.	RA	&	BS	
4.	LS	&	VC	
5.	VC	&	TT	
6.	LT	&	LP	
7.	FP	&	IG	

FP = FISIËSE WETENSKAPPE / PHYSICAL SCIENCES
 LS = LEWENSWETENSKAPPE / LIFE SCIENCES
 AG = AARDRYKSKUNDE / GEOGRAPHY
 RA = REKENINGKUNDE / ACCOUNTING
 BS = BESIGHEIDSTUDIES / BUSINESS STUDIE
 VC = VERBRUIKERSTUDIES/ CONSUMER STUDIES
 TT = TOERISME / TOURISM
 LA = LANDBOUWETENSKAP / AGRICULTURAL SCIENCE
 LT = LANDBOUTEGNOLOGIE / AGRICULTURAL TECHNOLOGY
 LP = LANDBOUBESTUURSPRAKTYK / AGRICULTURAL MANAGEMENT
 IG = INGENIEURSGRAFIKA / ENGINEERING GRAPHICS AND DESIGN

KIES ENIGE EEN VAN DIE VOLGENDE VAKKE CHOOSE ANY ONE OF THE FOLLOWING SUBJECTS	KEUSE/CHOICE
FP = FISIESE WETENSAPPE / PHYSICAL SCIENCES	
LS = LEWENSWETENSAPPE / LIFE SCIENCES	
RC = REKENAARTOEPASSINGSTEAGNOLOGIE/COMPUTER APPLICATIONS TECHNOLOGY	
AG = GEOGRAFIE / GEOGRAPHY	
RA = REKENINGKUNDE / ACCOUNTING	
BS = BESIGHEIDSTUDIES / BUSINESS STUDIES	
VC = VERBRUIKERSTUDIE / CONSUMER STUDIES	
IG = INGENIEURSGRAFIKA EN ONTWERP / ENGINEERING GRAPHICS AND DESIGN	
LA = LANDBOUWETENSKAP / AGRICULTURAL SCIENCE	
LT = LANDBOUTEAGNOLOGIE / AGRICULTURAL TECHNOLOGY	
LP = LANDBOUBESTUURSPRAKTYK / AGRICULTURAL MANAGEMENT	

LW/NB

- 'N MINIMUM VAN 18 LEERLINGE MOET 'N VAK KIES VOORDAT DIT AANGEBIED KAN WORD.
A MINIMUM OF 18 LEARNERS HAVE TO CHOOSE A SUBJECT BEFORE IT WILL BE OFFERED.
- VAKKEUSE MOET INPAS OP DIE SKOOLROOSTER.
SUBJECT CHOICE WILL HAVE TO FIT INTO THE SCHOOL TIMETABLE.
- SEUNS MOET 'N LANDBOUVAK KIES - UITSONDERINGS SAL HANTEER WORD.
BOYS HAVE TO CHOOSE AN AGRICULTURAL SUBJECT. EXCEPTIONS WILL BE DISCUSSED.

	AGRICULTURAL MANAGEMENT PRACTICES	
	AGRICULTURAL TECHNOLOGY	

INLIGTINGSTUK INFORMATION PAMPHLET

MATHEMATICS AND PHYSICAL SCIENCES WISKUNDE EN FISIËSE WETENSAP

As everyone knows, these two subjects open the doors to many study fields. As u kind dit egter nie neem nie, beteken dit nie dat hy/sy met die hande in die hare hoof te sit nie. Daar is baie studieveldde waar die twee vakke nie nodig is nie! So please don't force your child to take these subjects if they cannot cope with them.

Ons gaan aan die einde van gr. 9 'n evalueringseksamen skryf om vas te stel of u kind hierdie vakke kan neem. Indien hy/sy nie gekeur word vir Wiskunde nie, sal Wiskundige Geletterdheid geneem word. Gr 9 learners will be evaluated at the end of the year. Learners will be selected according to their achievement. If a learner is not selected to take Mathematics, he/she will have to take Mathematical Literacy.

COMPUTER APPLICATIONS TECHNOLOGY REKENAARTOEPASSINGSTEGNOLOGIE

Dit is inderdaad 'n baie gewilde vak! In Gr 8 and 9 learners have Computer Literacy as a subject and they really enjoy it. Wanneer 'n kind in gr. 10 Rekenaartoepassingstegnologie wil neem, moet hy/sy egter gekeur word omdat ons slegs twee rekenaarlokale met 20 rekenaars elk het. With the teachers available we can only accommodate two groups per grade and therefore only 40 learners per grade will be selected. Ons gebruik die leerders se gemiddeld om die keuring te doen. Learners will be selected according to their achievements in Gr 9.

ACCOUNTANCY AND BUSINESS STUDIES REKENINGKUNDE EN BESIGHEIDSTUDIES

Hierdie vakke pas baie mooi saam met Wiskunde. When a learner wants to choose these subjects he/she should enjoy working with numbers. Prestasie in Wiskunde en Ekonomiese- en Bestuurswetenskappe (EBW/EMS) kan as aanduiding gebruik word wanneer hierdie vakke gekies word. Business Studies is a subject where the learner can obtain good marks if he/she is prepared to study hard.

TOURISM TOERISME

Toerisme is 'n uitstekende vak vir die leerder wat sy/haar kennis rondom die wêreld en wat daarin aangaan, wil verbreed en/of toepas. Because the Tourism Industry is expanding worldwide, this is the foundation to a career in the Tourism Industry. Die vak loop ook hand aan hand met Aardrykskunde en die twee vakke vul mekaar baie goed aan. Tourism is a subject which consists of theoretical and practical components.

Algemene Toerisme in gr. 10 lê die grondslag vir gr. 11 wanneer daar in diepte gekyk word na aspekte soos basiese berekeninge, tydsones, eko-toerisme, forex, geografiese toerisme, kommersiële toerisme, streekstoerisme-markte en diensuitnemendheid om maar 'n paar te noem. Gr 12 reaches a climax when the above-mentioned becomes practical and learners have the opportunity to get hands-on knowledge.

ENGINEERING GRAPHICS AND DESIGN INGENIEURSGRAFIKA EN ONTWERP

Skills regarding discipline and perfect work without mistakes are taught in this subject. Ingenieursgrafika en Ontwerp is 'n vak wat leerlinge 'n idee gee waarmee ingenieurs en grafiese ontwerpers elke dag te doen kry en maak deure oop om in hierdie rigtings te gaan studeer. This subject can also be taught on computer with the CAD Key programmes, where the learners do their designs on computer.

CONSUMER STUDIES VERBRUIKERSTUDIE

Verbruikerstudie is 'n vak ideaal vir enige dogter. 'n Wye aspek van volwaardige vrou-wees word gedek. Die kennis en vaardighede is 'n aanwinst in enige beroepsrigting. The learner is able to make knowledgeable consumer choices about food, clothing, housing and furnishings within a given socio-economic and cultural context. We demonstrate knowledge of responsible consumer practices and effectively address consumer issues.

Verbruikerstudie open deure na die Verbruikerswese, Spyseniering, Klerebedryf, Modewêreld, Binnehuysversiering en Ontwerp.

AGRICULTURAL SCIENCE LANDBOUWETENSKAP

One of the study fields that the school offers, is Agriculture. Bekker is the **ONLY SCHOOL IN GAUTENG** with the facilities to offer this study field. It is therefore the aim of the school to motivate both the boys and the girls to take at least one subject in this field. Boys staying in the hostel are expected to take at least one Agricultural subject.

Dit word ook van die Onderwysdepartement se kant verwag dat ons die fasiliteite en die plaas sal gebruik. Seuns wat in die koshuis is moet ten minste een Landbouvak neem. In uitsonderlike gevalle waar leerlinge in die fisiese-, wiskundige-, rekenaar- en lewenswetenskappe spesialiseer, sal uitsonderings gemaak word (bv. Leerders bo 60% in bogenoemde vakke).

DIE VOLGENDE VAKKE WORD AANGEBIED:

Landboubestuurspraktyk
Landbouwetenskappe
Landbou Tegnologie

THE FOLLOWING SUBJECTS ARE OFFERED:

Agricultural Management Practices
Agricultural Sciences
Agricultural Technology

THE AIM OF THESE SUBJECTS ARE:

- To provide the pupil with an insight into the management of a farming enterprise.
- To lead the pupil to acquire a sound knowledge and understanding of the technical and economical aspects of production avenues.
- To learn basic skills and techniques.
- To cultivate a love and appreciation for soil, plants and animals.

Praktiese werk vorm 'n groot deel van Landboubestuurspraktyk en Landboutegnologie en verskeie kursusse word vir die leerders aangebied. Die jeugskou is ook 'n belangrike deel van die landbouafdeling by Bekker en die leerders word aangemoedig om hieraan deel te neem. Verskeie uitstappies na landbouorganisasies word ook onderneem om so die leerders in kontak te bring met die moderne tegnologie.

We can also offer Agricultural Sciences. This will only be possible if there are at least 20 learners who are interested in this subject. It is recommended to combine Agricultural Science with any of the following subjects:
Life Sciences, Physical Sciences and Geography.
